

Kaushal Rajesh

kaushrajesh04@gmail.com | (224) 475-6981 | linkedin.com/in/kaushrajesh | https://vinskal.com/

EDUCATION

University of Illinois at Urbana-Champaign

Expected May 2027

Bachelor of Science in Brain and Cognitive Science with Minors in Computer Science & Informatics | GPA: 3.76

Notable Coursework: Human Factors (IE 340), Web Design (INFO 490), Cognitive Science (PSYC 210/BCOG 458), Data Structures & CS Fundamentals (CS 124, 128, 173, 225)

Study Abroad: Yonsei University

Seoul, South Korea (Spring 2026) | Human-AI Interaction (CAS 4127)

EXPERIENCE

Co-founder, Product Design & Brand Lead – <https://vinskal.com/>

August 2026 - Present

Vinskal — Champaign, IL

- Directed the complete visual redesign and UI architecture for a technical job-search platform, shifting product identity from a generic interface to a cognitively ergonomic, brutalist design system.
- Architected production-ready front-end specifications (ui-spec.md) and design tokens, translating UI/UX layouts directly into machine-executable directives for rapid Claude Code implementation.
- Established design systems, typography hierarchy (display grotesque, Geist, JetBrains Mono), and component token sets to optimize cross-functional dev handoff and engineering alignment.
- Restructured information architecture; designed and built new user flow, desktop interaction design, landing page, and job-fit visualization workflows to maximize telemetry clarity and candidate conversion.

Information Technology Intern (Enterprise UX)

July 2025 - August 2025

HOERBIGER — Fort Lauderdale, FL

- Streamlined enterprise application lifecycles by executing Power Automate deployment workflows while applying HCI principles to design custom SharePoint pages and list views for a fleet-wide Windows 11 migration.

CO-OP (IT & UX Development)

June 2025 - August 2025

MetalTek International — Waukesha, WI

- Redesigned and rebuilt the company intranet using a user-centric approach to improve information architecture, visual hierarchy, and user experience across corporate departments.

PROJECTS

RR Custom Homes <https://www.randrcustom.homes/>

July 2026 - September 2026

- Designed and built a luxury brand website and responsive web experience for a custom residential builder targeting the \$1M+ market.
- Established the full site architecture, design system, and front-end focused on typography and visual experience.

thock&co. — <https://thockco.com/>

July 2025 - September 2025

- Created responsive web layouts and interactive prototypes in Cursor, bridging design intent with modular, content-managed component structures.
- Designed and developed a personal brand website and e-commerce platform for a custom mechanical keyboard business using Next.js, Tailwind CSS, and Sanity CMS.
- Applied an HCI-engineering framework to create a visually striking, performant experience aiming to directly drive business engagement.

RESEARCH EXPERIENCE

SeoulWalk

January 2026 - May 2026

Yonsei University — South Korea

- Co-authored and engineered an Expo/FastAPI multimodal mobile guide combining GPS geofencing, RAG, and computer vision; conducted two-phase field/lab user evaluations (n=6) demonstrating that a "zero-guess" interaction model with native map handoffs effectively mitigated spatial hallucinations and calibrated user trust.

Independent Study with Dr. Zhang

January 2024 - May 2024

University of Illinois at Urbana-Champaign

- Conducted research on machine learning algorithms (Decision Trees/Random Forests), leveraging Python and advanced data analysis techniques to process large datasets and optimize model performance.

SKILLS

Design & Prototyping Tools: Figma, Claude Design, Google Stitch

Software & Engineering Tools: Git, Cursor, AI-Assisted Implementation, Claude Code, Power Automate

Machine Learning & Analytics: Machine Learning, Algorithms, Data Analysis

Design & Engineering Methods: Rapid Prototyping, Prompt Engineering for UI / UX, Cross-functional Dev Handoff

Frontend & Web Architecture: Cognitive Ergonomics, Accessibility, Tailwind CSS, TypeScript/JavaScript, HTML/CSS, React, Next.js

UX Strategy & Information Architecture: Wireframing, Information Architecture, Usability Testing, User Research, Human-Computer Interaction (HCI), Technical Product Strategy
